Attn: Nigel Robinson, Project Officer

Dear Mr. Robinson:

Pursuant to my letter dated January 29, 1988, I have attached a copy of NIOSH Method 7402 which uses Transmission Electron Microscopy (TEM) for the analysis of asbestos air samples. As you have requested that the air samples will be analyzed by TEM, this method is the method we will use to collect and analyze the samples.

Sincerely,

FRED C. HART ASSOCIATES, INC.
